

SEP Success Story: HAKO

Hako is a leading international manufacturer of professional machines and provider of excellent services for cleaning technology, municipal technology and waterjet technology. With headquarters and main plant in Bad Oldesloe near Hamburg, the Hako Group has further production facilities in Germany, Poland and the USA.

"The breadth of supported applications including our SAP environment through SEP sesam and CAPS for Microsoft 365, taking into account the compliance requirements, convinces us very much as well as SEP's consulting and service." Rüdiger Paasch, IT-Manager, Hako
